

“I’ve Met Hundreds of Doctors...”

Sarah Warburton

...says, home health nurse, Cidnea Baskinger, “and Dr. Chauhan’s one of the most caring I’ve ever known.” Cidnea and her husband had been trying to get pregnant for a couple of years, when they learned her fallopian tubes were blocked. Afraid that they would never be parents, Cidnea made an appointment with Dr. Subodh Chauhan at the Fertility Specialists of Houston. She says, “You feel so alone and scared like you’re the only person who ever got this news. Dr. Chauhan recommended that we find a support group...and I drove an hour to be around women and men who understood what we were going through.”

“From the first time we met Dr. Chauhan, he was wonderful...caring compassionate, and considerate. My husband’s not in the medical field, so Dr. Chauhan spent over an hour with us, explaining everything...he even printed out articles for us to take home, so we’d understand our diagnosis better. He told us exactly what our options were, and encouraged us to go home and think it over and make an appointment when we were ready. We felt absolutely no pressure.”

“After surgery, we started with in vitro. Once I just got overwhelmed, thinking that I would never be a mom. I just put my head on Dr. Chauhan’s shoulder and cried...he’s so empathetic. With his skills and expertise, he made a dream of ours come true...and our daughter Olivia was born in 2007. I went back a few months ago to try again, and now I’m pregnant with twins. When it didn’t work the first time, he was as disappointed as we

were...I could see the tears in his eyes. Later when we learned we were pregnant again his whole office was so happy for us. Saying “thank you” doesn’t begin to compare with the joy he gave us!”

“When I’m with Dr. Chauhan, I feel like I’m his only patient. He’s got amazing knowledge and skill...but it’s his heart that makes him such a special doctor. Our daughter is an unbelievable miracle to us...and Dr. Chauhan made it possible for us to be parents.”
